Innovation-Driven, Quality-Excellence | US Golden Electrictech Group Inc

US Golden Electrictech Group Inc , established in January 2016, is located in the picturesque Gaithersburg, Maryland, in the Washington D.C. area. Since our inception, we have been deeply dedicated to the development of systems and the field of electrical engineering. Our product range encompasses the production and customization of multi-dimensional solid-state relays for direct current, alternating current, and voltage regulation.

We uphold innovation and quality as our creed, committed to providing customers with the highest quality products and services. The core philosophy of our company is centered on the customer and aims for a win-win cooperation. This belief is not only reflected in our corporate culture but also permeates our daily operations and product development. We firmly believe that through continuous technological innovation and quality improvement, we can provide more efficient and reliable solutions to customers worldwide.

In terms of technology, we possess multiple design patents that not only protect our intellectual property rights but also ensure the uniqueness and competitiveness of our products in the market. Additionally, we have a professional and experienced technical team that is constantly driving technological progress, ensuring that our products and services remain at the forefront of the industry.

To further enhance our corporate strength, we continuously invest in the upgrade of research and development and production facilities. We believe that through ongoing efforts and innovation, US Golden Electrictech Group Inc. will be able to occupy a more significant position in the global market and achieve a win-win future together with our partners.

Corporate Mission

We pursue not just products, but an unwavering commitment to innovation, strict quality control, and sincere care for our customers. Through our own growth and development, we aim to propel our customers' businesses to new heights and create more value for society.

Corporate Philosophy

We dare to innovate and never stand still. Innovative Ideas: As practitioners of innovation, we believe that every challenge is an opportunity and every breakthrough is progress. Therefore, we are always brave in embracing challenges.

Soul of Quality

Quality is our soul. We infuse quality into every detail, crafting each product with meticulous care, ensuring that customers can choose and use our products with confidence.

Win-Win Future

Cooperative win-win is our promise to customers, partners, and employees. We firmly believe that only through joint efforts can we create a better future.

Products and Services

Our products are not just solid-state relays; they redefine electrical control. We integrate technological innovation and exquisite craftsmanship into each product, offering not only solutions but also meeting and surpassing customer needs.

Corporate Vision

Our vision is to become a leader in the field of electrical control, guiding the industry's development and shaping a better future. With an innovative spirit that never stops, we will create greater value for our customers, employees, and society, becoming a partner that can always be relied upon.

INNOVATIVE POWER CONNECTING THE WORLD

ADVANCED DESIGNED SSR

WIDE OPERATING TEMPERATURE RANGE
广泛的工作温度范围

HIGHER CONTROL ACCURACY
更高的控制精度

LONGER SERVICE LIFE
更长的使用寿命

STRONGER ANTI-INTERFERENCE ABILITY
更强的抗干扰能力

HIGH SPEED RESPONSE AND QUICK SWITCH
高速响应快速开关

MORE SECURITY PROTECTION FUNCTIONS
更多的安全保护功能
